

## Promise Me

Promise me you won't be so hard  
About the distance that tear us apart  
Just follow the signs and let the  
universe do the rest

Promise me you won't be so hard  
to the love kept inside your heart  
Just follow the signs  
And when you feel strong enough  
let it be and give it to me

The story of our love  
comes from the stars  
Like a puzzle of a map  
Reveals our path  
The moment that we met  
The years to come  
Are for us to share

Promise me  
that you'll fly so high  
Letting happiness  
Be on your side  
And think of us and smile  
Cause I know everything will be alright

The story of our love  
comes from the stars  
its like a puzzle of a map  
Reveals our path  
The moment that we met  
The years to come  
For us to share

The story of our love comes from the stars  
they've shown us many signs for us to become aligned  
The story of our love comes from the stars  
We followed what they said until we have met
